Erica Maranowski

FULL STACK SOFTWARE ENGINEER

971.340.6684 | emaranowski@gmail.com | Portland, OR | Portfolio | LinkedIn | GitHub

TECHNICAL SKILLS

Frontend: React, Redux, JavaScript, HTML, CSS
Backend: Node, Express, Sequelize, Python, Flask, SQL, PostgreSQL
Data: SPSS, Stata, R

PROJECTS

BanKan | A productivity and organization site (based on Trello and Evernote).   **Live | GitHub Repo**
- Built database tables, backend routes, thunks, and frontend components for boards, columns, cards, notebooks, and notes in under one week (full CRUD).
- Implemented the React Beautiful DnD package for drag-and-drop functionality to move cards within boards.

MeetBuds | A networking and activities site (based on Meetup).   **Live | GitHub Repo**
- Built database tables, backend routes, thunks, and frontend components for groups and events (full CRUD).

VancouberEats | An e-commerce site (inspired by UberEats).   **Live | GitHub Repo**
- Built database tables, routes, thunks, and components for menu items.
- Implemented AWS to allow users to upload image files for restaurants and menu items.
- Collaborated with a team of four engineers to complete the site in under one week.

EXPERIENCE

Evaluation Specialist | Neighborhood Partnerships | Remote & Portland, OR Nov 2019 – Mar 2023
